

THEMATIC PLAN
of lessons on propedeutics of internal diseases in English for students of III
course in a spring semester of 2024-2025

№ п/п	Topic	dates
1.	Subjective and objective methods of examination of patients with diseases of respiratory organs. Inquiry. Thorax survey.	03.02.25- 08.02.25
2.	Objective methods of examination of patients with diseases of respiratory organs – palpation and percussion.	10.02.25- 15.02.25
3.	Objective methods of examination of patients with diseases of respiratory organs – auscultation of lungs. Laboratory and instrumental methods of examination of patients with diseases of respiratory organs.	17.02.25- 22.02.25
4.	The basic clinical syndromes at diseases of respiratory organs. Examination of patients with diseases of respiratory organs.	24.02.25- 01.03.25
5.	Colloquium: «Examination of patients with diseases of respiratory system. The basic clinical syndromes at diseases of respiratory organs».	03.03.25- 08.03.25
6	Subjective and objective methods of examination of patients with diseases of cardiovascular system (inquiry of patient, general survey, local survey of heart area).	10.03.25- 15.03.25
7.	Objective methods of examination of patients with diseases of cardiovascular system – palpation and percussion of heart.	17.03.25- 22.03.25
8.	Objective methods of examination of patients with diseases of cardiovascular system – auscultation of heart.	24.03.25- 29.03.25
9.	Objective methods of examination of patients with diseases of cardiovascular system – auscultation of heart (heart murmurs). Laboratory and instrumental methods of examination of patients with diseases of cardiovascular system.	31.03.25- 05.04.25
10.	Clinical and electrocardiographic signs of hypertrophy of atriums and ventricles, ischemic heart disease.	07.04.25- 12.04.25
11.	Clinical and electrocardiogram signs of heart arrhythmias (bradycardia, tachycardia, sinus arrhythmia, extrasystoles, fibrillation and flutter, paroxysmal tachycardias).	14.04.25- 19.04.25
12.	Clinical and electrocardiogram signs of heart arrhythmias (sinuatrial blocks, atrial blocks, atrioventricular blocks).	21.04.25- 26.04.25
13.	The basic clinical syndromes at diseases of cardiovascular system. Laboratory and instrumental methods of examination (part 1)	28.04.25- 03.05.25
14.	The basic clinical syndromes at diseases of cardiovascular system. Laboratory and instrumental methods of examination (part 2)	05.05.25- 10.05.25
15.	Colloquium: «Examination of patients with diseases of cardiovascular system. The basic clinical syndromes at diseases of cardiovascular system».	12.05.25- 17.05.25
16.	Subjective and objective methods of examination of patients with diseases of esophagus, stomach and intestines.	19.05.25- 24.05.25
17.	Basic clinical syndromes at diseases of esophagus, stomach and intestines.	26.05.25- 31.05.25
18.	Subjective and objective methods of examination of patients with diseases of the hepatobiliary system. Basic clinical syndromes at diseases of the hepatobiliary system.	02.06.25- 07.06.25

The head of the department

A L Kalinin
