

**Lessons themes on pharmacology for 3rd year student's faculty of foreign students
in 2024 – 2025 academic year (the second set)**

№	Theme	Date of lesson
V semester (03.02.2025 – 14.06.2025)		
1.	Pharmaceutical sciences, pharmacy, pharmacopeia, structure of the prescription. General prescription. Solid dosage forms	03.02 – 08.02.2025
2.	Liquid dosage forms.	10.02 – 15.02.2025
3.	Parenteral dosage forms. Soft dosage forms	17.02 – 22.02.2025
4.	Subject of pharmacology. General pharmacology. Basics of pharmacokinetics. Principles of dosage of medicines	24.02 – 01.03.2025
5.	Pharmacodynamics of drugs. Factors affecting pharmacodynamics.	03.03 – 08.03.2025
6.	Final (control) lesson on general pharmacology and general prescription.	10.03 – 15.03.2025
7.	Drugs affecting the peripheral nervous system. Drugs affecting afferent innervation.	17.03 – 22.03.2025
8.	Drugs affecting the efferent innervation. Cholinergic drugs. Muscarinic agonists. Anticholinesterase drugs. Muscarinic antagonists.	24.03 – 29.03.2025
9.	Cholinergic agents. Nicotinic agonists and nicotinic antagonists (ganglionic blockers, neuromuscular blockers)	31.03 – 05.04.2025
10.	Adrenergic agents.	07.04 – 12.04.2025
11.	Drugs affecting the central nervous system. Drugs for general anesthesia. Ethanol. Hypnotics.	14.04 – 19.04.2025
12.	Analgesics.	21.04 – 26.04.2025
13.	Anticonvulsants. Antiparkinson drugs. Antipsychotic drugs.	28.04 – 03.05.2025
14.	Anxiolytics. Sedatives. Antidepressants. Normothymic, nootropic, psychostimulating agents. Analeptic drugs.	05.05 – 10.05.2025
15.	Final (control) lesson on neurotropic drug.	12.05 – 17.05.2025
16.	Drugs affecting respiratory system.	19.05 – 24.05.2025
17.	Drugs affecting gastrointestinal system».	26.05 – 31.05.2025
18.	Drugs affecting the function of gastrointestinal system (ending).	02.06 – 07.06.2025
