

Department of Biology

Plan of lectures

for groups of students **101a*-103a*** of 1st year 1st semester 2023/2024

Subject “Medical biology and general genetics”

Day of week	Date	Time	Topic	Lecturer
Thursday	29.02.2024	12.00-13.00	Characteristics of genetic material.	Potenko V.V.
	21.03.2024		Gene expression and repression in pro- and eukaryotes.	Potenko V.V.
	11.04.2024		Chromosome and genome level of hereditary material organization. Gene linkage.	Potenko V.V.
	02.05.2024		Diversity of organisms. /Bases of human genetics. Human hereditary diseases.	Potenko V.V.

Room: 5th floor, auditorium 501, No. 1st building (main building), Lange St., 5

Зав. кафедрой, д.б.н., доцент

Потенко В.В.
