

## КАФЕДРА БИОЛОГИИ

### КАЛЕНДАРНО-ТЕМАТИЧЕСКИЙ ПЛАН ЛАБОРАТОРНЫХ ЗАНЯТИЙ

для студентов I курса ФИС (*обучение на английском языке*)

специальность «Лечебное дело»

по дисциплине «Медицинская биология и общая генетика»

на II семестр 2023-2024 учебного года.

## Plan of laboratory works

for students of 1<sup>st</sup> year 2<sup>nd</sup> semester 2023/2024

Subject “*Medical biology and general genetics*”

№	Topic	Date
1	The sex biology and genetics	12.02-17.02
2	The reproduction of organisms. Feature of human reproduction	19.02-24.02
3	The individual development. Embryonic development	26.02-02.03
4	The individual development. Postembryonic development	04.03-09.03
5	Ontogenetic homeostasis and their regulation	11.03-16.03
6	Population genetics	18.03-23.03
7	The basis of parasitology. Medical protistology. Phylum Sarcomastigophora, class Sarcodina	25.03-30.03
8	Medical protistology. Phylum Sarcomastigophora, class Zoomastigota	01.04-06.04
9	Medical protistology. Phylum Apicomplexa, class Sporozoa. Phylum Infusoria, class Ciliata. Phylum Microspora, class Microsporea	08.04-13.04
10	Medical helminthology. Phylum Plathelminthes, class Trematoda	15.04-20.04
11	Medical helminthology. Phylum Plathelminthes, class Cestoda	22.04-27.04
12	Medical helminthology. Phylum Nemathelminthes, class Nematoda. Geohelminthes	29.04-04.05
13	Medical helminthology. Phylum Nemathelminthes, class Nematoda. Biohelminthes and contact helminthes	06.05-11.05
14	Medical arachnoentomology. Phylum Arthropoda, class Arachnoidea	13.05-18.05
15	Medical arachnoentomology. Phylum Arthropoda, class Insecta	20.05-25.05
16	<b>The basis of parasitology. Final class</b>	<b>27.05-01.06</b>
17	Poisonous living organisms. <b>Computer test</b>	<b>03.06-08.06</b>

Зав. кафедрой, д.б.н., доцент

Потенко В.В.
