

THEMATIC PLAN
of lessons on propedeutics of internal diseases in English for students of III
course in a spring semester of 2025-2026 (второй набор)

№ п/п	Topic	dates
1.	Subjective and objective methods of examination of patients with diseases of respiratory organs. Inquiry. Thorax survey.	02.02.26- 07.02.26
2.	Objective methods of examination of patients with diseases of respiratory organs – palpation and percussion.	09.02.26- 14.02.26
3.	Objective methods of examination of patients with diseases of respiratory organs – auscultation of lungs. Laboratory and instrumental methods of examination of patients with diseases of respiratory organs.	16.02.26- 21.02.26
4.	The basic clinical syndromes at diseases of respiratory organs. Examination of patients with diseases of respiratory organs.	23.02.26- 28.02.26
5.	Colloquium: «Examination of patients with diseases of respiratory system. The basic clinical syndromes at diseases of respiratory organs».	02.03.26- 07.03.26
6	Subjective and objective methods of examination of patients with diseases of cardiovascular system (inquiry of patient, general survey, local survey of heart area).	09.03.26- 14.03.26
7.	Objective methods of examination of patients with diseases of cardiovascular system – palpation and percussion of heart.	16.03.26- 21.03.26
8.	Objective methods of examination of patients with diseases of cardiovascular system – auscultation of heart.	23.03.26- 28.03.26
9.	Objective methods of examination of patients with diseases of cardiovascular system – auscultation of heart (heart murmurs). Laboratory and instrumental methods of examination of patients with diseases of cardiovascular system.	30.03.26- 04.04.26
10.	Clinical and electrocardiographic signs of hypertrophy of atriums and ventricles, ischemic heart disease.	06.04.26- 11.04.26
11.	Clinical and electrocardiogram signs of heart arrhythmias (bradycardia, tachycardia, sinus arrhythmia, extrasystoles, fibrillation and flutter, paroxysmal tachycardias).	13.04.26- 18.04.26
12.	Clinical and electrocardiogram signs of heart arrhythmias (sinuatrial blocks, atrial blocks, atrioventricular blocks).	20.04.26- 25.04.26
13.	The basic clinical syndromes at diseases of cardiovascular system. Laboratory and instrumental methods of examination (part 1)	27.04.26- 02.05.26
14.	The basic clinical syndromes at diseases of cardiovascular system. Laboratory and instrumental methods of examination (part 2)	04.05.26- 09.05.26
15.	Colloquium: «Examination of patients with diseases of cardiovascular system. The basic clinical syndromes at diseases of cardiovascular system».	11.05.26- 16.05.26
16.	Subjective and objective methods of examination of patients with diseases of esophagus, stomach and intestines.	18.05.26- 23.05.26
17.	Basic clinical syndromes at diseases of esophagus, stomach and intestines.	25.05.26- 30.05.26
18.	Subjective and objective methods of examination of patients with diseases of the hepatobiliary system. Basic clinical syndromes at diseases of the hepatobiliary system.	01.06.26- 06.06.26

The head of the department

A L Kalinin
