PLAN OF LABORATORY WORKS

FOR STUDENTS OF 1st YEAR 2nd SEMESTER OF 2024/2025

SUBJECT “ECOLOGICAL PARASITOLOGY”

№	Topic	Date
1	Introduction to ecological parasitology. «Parasite-host» system	16.09/23.09.24
2	Parasitic system. Concept about parasitocenoses	30.09/07.10.24
3	Parasitic diseases and their classification. Biological basis of control of parasitic diseases	14.10/21.10.24
4	The host-parasite relationship at the population and organism levels at protozoan diseases	28.10/04.11.24
5	The host-parasite relationship at the population and organism levels at biohelminthoses	11.11/18.11.24
6	The host-parasite relationship at the population and organism levels at geohelminthiasis and contact helminthiasis	25.11/02.12.24
7	The ecology, biology and medical significance of ticks	09.12/16.12.24
8	The ecology, biology and medical significance of insects. Test class in the subject	23.12/30.12.24
